

Used Clothes Balers

1. Large flow fast oil pump, solid materials, long service life of the frame
2. Using well-known brand electrical components and hydraulic components, the failure rate is low.
3. The size of the bale is designed reasonably, which is convenient for Baler.
4. Adopt electric control, high degree of automation and fast Baler speed.
5. The machine pressure plate and the material box are closely designed, and the punched out blocks are neat and beautiful.

Model	NK60LT
Hydraulic power	60Ton
Packaging size (L*W*H)	1000*700*400-800 mm
Feed opening size (L*H)	1000*460m m
Chamber Size (L*W*H)	1000*700*1250 mm
Bale weight	150-200Kg
Capacity	10-12 bales/H
System Pressure	25Mpa
Packing materials	Cross packing
Packing way	Front-Back 4 pcs/ Left-Right 2 pcs
Voltage (can be customized)	380V/50HZ
Power	15KW/20HP
Machine size (L*W*H)	1700*1000*3780mm
Weight	2900Kg
