

Features:

Used Clothes Baler machine is a kind of hydraulic baler machine mainly used in garment factories, garments and textiles for Baling machine ,hydraulic balers. It can be used to pack all loose materials such as old clothes, towels, quilts, shoes, rags, fiber fabrics, cotton, wool, cloth, knitted velvet, wool tops, etc. The Used clothes baler is compact, neat and beautiful, and can greatly reduce transportation costs. It is an indispensable production tool for cotton producing areas, textile enterprises, garment factories and other various light industrial enterprises.

Model	NK80LT
Hydraulic power	80Ton
Packaging size (L*W*H)	1100*800*400-900 mm
Feed opening size (L*H)	1100*460mm
Chamber Size (L*W*H)	1100*800*1250 mm
Bale weight	200-300Kg
Capacity	10-12 bales/H
System Pressure	25Mpa
Packing materials	Cross packing
Packing way	Front-Back 5 pcs/ Left-Right 2 pcs
Voltage (can be customized)	380V/50HZ
Power	15KW/20HP
Machine size (L*W*H)	1850*1200*3800mm
Weight	3500Kg
