

NKOT220 Used Tire Baling Press Machine

It is mainly used for scrap tires, small car tire, rubber compression packaging.

Features:

Tire Balers mainly used for scrap tires, small car tire, rubber compression packaging
 This baling machine is specialized in tires compress and baling.
 Hydraulic baling press machine pressure open the door, two cylinders, manual valve operate,
 make the hydraulic balers more durable and reliable,
 Mobile and Stationary type double Anti-kickback devices.
 Front & Back opening doors for convenient strapping and bale ejecting, the baling press
 machine is perfect

Model	NKOT220
Hydraulic power	220Ton
Packaging size (L*W*H)	1800*1200*1400 mm
Feed opening size (L*H)	1800*750mm
Chamber Size (L*W*H)	1800*1200*2400 mm
Capability	4-5 bale/hour
Bale weight	1600-2000Kg
Voltage	380V/50HZ

Shaanxi Nick Machinery Equipment Co.,Ltd

Address: East Qunsheng Road Wuxi City, Jiangsu, China

Power	45KW/60HP
Weight	13000Kg

Nick mechanical tire baler is mainly used in 4S shops, car tires, tractors, truck tires, engineering tires and waste rubber compression packaging. It has the characteristics of reasonable and simple structure, convenient installation, long use time and high work efficiency. NKOT series type tire baler is mainly used in 4S stores, waste tire recycling stations, etc., if you have this need, you can contact our sales 86-29-86031588, Nick machinery can tailor the program for you.
